

Epson TM-T88V

POS Thermal Printer

The TM-T88V is the latest addition to Epson's industry-leading TM-T88 POS printer series. Designed for use in food service and retail environments, the TM-T88V offers more speed, features and reliability than ever before.

High-speed, high-resolution text and graphics printing

Now you can speed customer throughput with the TM-T88V printer. It prints both receipts and graphics at the same high speed of up to 300mm per second. And it's the first printer in the industry to offer 16 levels of grayscale to ensure clear, crisp graphics.

Reliability you can count on

With a MCBF of 70 million lines and an autocutter life of 2 million cuts, the TM-T88V delivers best-in-class reliability so critical in high volume environments.

Easy to use. Easy to maintain.

The TM-T88V is packed with easy-to-use features including drop-in paper loading, an autocutter, easy-to-read LEDs and an improved cover design to protect the printer from foreign objects.

More features, more flexibility

The TM-T88V also features auto speed adjustment for smoother printing and more barcode options including 2D. In addition, it comes with dual interfaces (USB and one additional interface) for flexibility in handling interface transitions.

Reduce costs with paper saving options

Epson's TM-T88V paper-saving options allow you to realize significant cost and paper savings of up to 30%. Unlike other POS printers, Epson reduces paper usage by reducing the white spaces on the receipt. This means you can still use standard 80mm receipt paper and print quality, readability and font size are not affected.

Wireless printing from Apple iDevices

Epson now offers a TM-T88V MFi model that supports Bluetooth 2.1 + EDR for iOS. This allows retailers to take advantage of highly reliable, Bluetooth-based mobile printing from all of the Apple iDevices including the iPad®, iPod touch® and iPhone®.

Apple process for application developers

Epson has worked with Apple to develop an easy-to-use process to help developers meet Apple's special requirements for Bluetooth applications. To learn more go to pos.epson.com/iosapps.

Industry-leading four-year warranty

The TM-T88V is backed by Epson's industry-leading service and support programs and comes with a four-year limited warranty.

- Fast printing up to 300mm/second for both text and graphics
- Best-in-class reliability
- Dual interfaces including built-in USB plus one UIB interface
- Ease-of-use features include drop-in paper loading, autocutter and status LEDs
- Special print options reduce paper usage up to 30%
- MFi model available for mobile printing from all Apple iDevices
- Industry-leading four-year limited warranty
